## About advoz

Conflict and crime are inevitable in our community. But they can also be opportunities for positive change.

Advoz uses different dialogue methods in our community ecosystem, both downstream when harm occurs (restorative justice), mid-stream when it's occurring (mediation) and upstream to prevent conflicts from getting worse (training). Through time-tested dialogue methods, Advoz equips our community to constructively handle conflicts, violence and crime. With more than 30 years of experience serving now approximately 900 youth and adults, businesses and organizations each year, Advoz enhances communication, accountability and mindfulness, empowering parties in a conflict or crime, even offenders and victims, to mend broken relationships, find resolution, and build stronger, safer communities. Together, we can:

- Facilitate healing of youth and adults who may have harmed others or been harmed by violence and/or crime;
- Mediate resolution of challenging situations among families, neighbors, and institutions;
- Train teachers, counselors and administrators in restorative justice practices as an inclusive approach to discipline and community building.
